ADA Upgrades Underway at the Plymouth Cultural Center

A complete renovation of the original 1972 restrooms in the Plymouth Cultural Center began last month, in order to bring the facilities into compliance with the Americans with Disabilities Act (ADA).

ADA legislation requires all newly constructed public facilities to be accessible to all members of our population. However, most of our City-owned facilities were constructed prior to the enactment of the Act, and retrofitting the older "grandfathered" public structures is usually very costly and is not achievable within our annual City budget.

Recently, however, with the help of our State Representative Matt Koleszar and our Congresswoman, Haley Stevens, the City of Plymouth received State of Michigan and federal funding to tackle some of our ADA projects.

The renovation requires rotating the restroom 90 degrees to accommodate all required ADA standards. The floors will be saw cut for new plumbing, cinder block walls will be moved, all doorways will be expanded, and existing bathroom fixtures will be replaced.

We anticipate that the restrooms in the Cultural Center will be completed by May 26. Upon their completion, construction will shift to the Ice Arena restrooms where the process will begin all over again, with the final stage of construction expected to be completed by August 19.

"This project has been a long time coming," said Recreation Director Steve Anderson. "We're so thankful our elected leaders have been able to help us out with grants so we can make the facility fully inclusive for all."

March Police Training

Western Wayne County Special Operations Team Training

Team members attended the required regular monthly training sessions involving the many skills needed to successfully intervene during a critical incident situation such as a hostage rescue or barricaded gunman. These skills include proper planning and response, firearms and equipment proficiency, team movement, surveillance, and much more.

Defensive Tactics Instructor Recertification Training

One of our defensive tactics instructors completed his triennial recertification requirement in Pressure Point Control Tactics (PPCT) Management Systems. PPCT is based in tactical, legal, and medical research.

PowerDMS Training

Initial training and setup of accreditation program software for Accreditation Managers and Administrators

Accreditation Manager Training

Overview of the MLEAC Accreditation Program and it's process for newly appointed Assistant Accreditation Manager

Western Wayne County Mobile Field Force Team Training

Team members attended regular quarterly training session involving maintenance of skills necessary during civil disturbances. Skills included proper command and control techniques, tactics, communication, and equipment proficiency.

Joint Plymouth City-Township Honor Guard Training

Monthly training.

Body Worn Cameras Coming Soon!

The Plymouth Police Department will soon outfit all officers with body-worn cameras. The police department has had in-car video/audio systems for nearly 19 years. The new Bodyworn by Utility platform will link both the in-car and body camera video and audio.

The department reviewed equipment from many manufacturers before choosing Bodyworn by Utility for its many benefits and officer-safety features, including unlimited cloud storage, automatic camera activation, officer down detection alerts, GPS tracking, and real-time video sharing.

"Transparency with the public and protection for the officers will be greatly enhanced as the department transitions to this platform," said Director of Public Safety Al Cox. "We are excited about the new system and expect to deploy it within the next 60 days."

Grass and Weed Ordinance

It may seem that winter will never end but eventually it will stop snowing and warm up, which means grass and weeds will be growing! Once that happens, the ordinance enforcement team will begin regular and routine enforcement of the grass and weeds ordinance Sec. 18-751 through Sec. 18-756 in the city's Code of Ordinances.

"The ordinance enforcement team receives a significant number of phone calls and complaints about unkempt yards with tall grass and weeds, said Community Development Director John Buzuvis. "The team spends most of their time in spring and early summer taking and following up on complaints for tall grass and weeds."

Grass and weeds exceeding a height of eight inches must be trimmed. If a property is in violation of this ordinance, owners are informed by the posting of an orange notice in a conspicuous place, usually the front door, indicating the property owner has 24 hours from time of posting to mow the lawn or remove the weeds. Should the property owner not address the violation, the City, or its contractors, are permitted, by ordinance to resolve the violation at the expense of the property owner with additional fines.

A well-maintained lawn and yard provide benefits to the neighborhood, the environment, and the community. The enforcement of this and other property maintenance ordinances helps reduce or eliminate conditions that may lead to blight and minimizes the areas where bugs, mosquitoes and rodents may harbor.

If you have any questions or would like to report tall weeds or grass please visit the Grass and Weeds Ordinance for more information or call the Code Enforcement Officer at 734-453-1234 ext. 231.

Let's Do Our Part to Help the Pollinators

Spring has finally sprung here in Plymouth, and many gardeners are already starting to plan their projects for the season. When putting together this year's landscape and garden plan, consider making choices that support the pollinator habitat and life-cycle.

Pollinators provide an essential service to the environment. Mainly insects like bees, butterflies, moths, wasps, beetles and flies do the majority of pollination activities. Over 80% of all flowering plants need assistance from pollinators to complete the reproduction process and it is estimated that 1 in 3 bites of food is made possible by pollinators. Simply stated, these tiny creatures have a huge impact on the world.

Unfortunately, the pollinators are in a dangerous state of decline due to urban development, loss of habitat, pesticide use, climate change and lack of native plant-life. About 19% of butterflies in the U.S. are approaching extinction. The monarch, one of the most recognized and beloved butterflies, has declined by over 80% in the last 20 years. The future looks grim for the bee population as well with 28% of bumble bees, 50% of leafcutter bees, and 27% of mason bees all in decline. Further, honey bee keepers have experienced over 35% losses on average since 2010.

What can Plymouth residents do to help the pollinators? When choosing trees, shrubs and plants for the garden, consider native species that support the pollinator habitat and life-cycle. Native plants grow naturally in regions where they have evolved over time. They provide habitat to native insects, pollinators, birds, and other animals who have co-evolved with them. The benefits of native plants include less maintenance and water, no chemical pesticides and herbicides required, and the gardens will be abuzz from all the pollinator entertainment.

Not sure how to start or what to plant? Check out the National Wildlife Federation native plant finder to see what trees, shrubs and plants are native to the Plymouth area (<https://www.nwf.org/nativeplantfinder/>). Other organizations to look into are the Xerces Society for Invertebrate Conservation (<https://xerces.org/>), Pollinator Partnership (<https://www.pollinator.org/>) and Monarch Watch (<https://monarchwatch.org/>).

Also, the City of Plymouth is home to three local non-profit organizations that specialize in environmental conservation, Friends of Rouge (<https://therouge.org/>), Plymouth Pollinators (<https://www.plymouthpollinators.org/>) and Keep Plymouth Leafy (<https://keepplymouthleafy.org/>).

Curbside Brush Chipping

Any City of Plymouth resident or business may utilize curbside brush chipping. Brush chipping is a year-round service and allows for the disposal of larger limbs and branches at the curb. No city bags or tags are required for brush pickup. Additionally, there is no need to notify Municipal Services of limbs at the curb. Brush chipping is not available to tree contractors.

Collection Schedule

Brush must be placed at the curb before 6:00 a.m. on the Monday of your designated pickup week. This is not an on-demand service, please follow the below schedule:

If your address is in area A, crews will be in your area the first full week of the month.

If your address is in area B, crews will be in your area the second full week of the month.

If your address is in area C, crews will be in your area the third full week of the month.

If your address is in area D, crews will be in your area the fourth full week of the month.

The schedule is subject to change due to city staffing levels, equipment, weather events, etc.

How it Works

City crews will chip your brush at your curbside. To ensure your brush is chipped quickly and safely, please follow these guidelines:

- Place brush neatly at the curb, stacked in all one direction.
- Place the cut ends facing towards oncoming traffic.
- Ensure limbs are at least 3 feet long – smaller sticks and twigs should be placed out for compost collection in a Kraft bag or can marked for compost.
- Keep limbs long – no need to cut into shorter pieces.
- Ensure brush pile is not taller than 5 feet tall.
- Clear root balls of all dirt.
- Limbs with thorns and vines or vine-like weeds cannot be chipped – place vines out for compost collection.
- Ensure vehicles are not blocking or parked too close to brush piles.
- Keep brush removed from any legal, marked parking space or fire hydrant.
- Keep brush separate from bulk leaf piles in the fall season.
- Diameter of each limb should not exceed 6 inches.

April Brush Chipping

Area A April 4-8

Area B April 11-14

Area C April 18-22

Area D April 25-29

Street Trees

The City of Plymouth is once again offering our annual Street Tree Planting Program. Please see the Trees and Forestry page at plymouthmi.gov/trees for information on how to order a tree to be planted in front of your home between the sidewalk and the street.

In addition, the City of Plymouth, along with Keep Plymouth Leafy is giving away several street trees. The trees must be planted between the sidewalk and the street in front of homes and businesses in the City. You may enter the giveaway at keepplymouthleafy.org.

Spring Bug Hunt

Have some fun and help Friends of the Rouge assess the health of the Rouge River by joining a team of volunteers to search for critters in the streambed

Saturday, April 23, 2022
10:00 A.M. ~ 4:00 P.M.

Benthic Macroinvertebrate Sampling Program

Meet a team to search for caddisflies, mayflies, dragonflies and other aquatic life in Rouge streams. The abundance and diversity of the organisms found at each site provides information on the health of the stream. Volunteers must pre-register. Site assignments are emailed to volunteers the week of the event.

*** No experience is necessary. All volunteers must self-screen for covid symptoms and be fully vaccinated or have a negative test. Children eight and older are welcome when accompanied by a PARTICIPATING adult; groups limited to four people.

Registration required by April 9, 2022 at

therouge.org/bug-hunt-events-and-trainings/therouge.org

Questions? (734) 927-4904

Interested in becoming a Team Leader? Sign up for our training. You can be a Collector or Bank Leader.

This program is supported by the following Rouge communities: Beverly Hills, Farmington, Livonia, Northville Township, Novi, Plymouth, Plymouth Township, Southfield, Troy, and Washtenaw County and Michigan Department of Environment, Great Lakes and Energy.

March Boards and Commissions

Historic District Commission Meeting - March 2, 2022 - canceled

Zoning Board of Appeals - March 3, 2022

- a. Z22-01 – 190 Hamilton, non-use variance for front yard setback for covered porch and bedroom addition - denied

City Commission –March 7, 2022

CONSENT AGENDA

- a. Approval of February 7, 2022 City Commission Meeting Minutes
- b. Approval of February 22, 2022 City Commission Meeting Minutes
- c. Approval of January 2022 Bills
- d. Special Event: Plymouth Community Band Concerts in the Park, Thursdays June – July 2022 (not July 7)

NEW BUSINESS

- a. Investment Policy Update - approved
- b. Confirmation of Emergency Repairs to Vactor - approved
- c. Intergovernmental Agreement with Wayne County Park Millage Funds - approved
- d. Approval of Traffic Control Order No. 21-5 – approved
- e. Post Payment in Lieu of Parking - approved

Planning Commission March 9, 2022

PUBLIC HEARING

- a. SP22-01: 306 S. Main, Special Land Use and Site Plan Review - approved

NEW BUSINESS

- a. PUD22-01: 100 S. Mill - Preliminary Plan for a PUD/PUD Amendment - tabled

Downtown Development Authority –March 14, 2022

- a. Central Parking Deck Inspection - approved
- b. Parklets - review only

City Commission - March 21, 2022

CONSENT AGENDA

- a. Special Event: K of C Annual Tootsie Roll Drive – Friday-Sunday, April 8-10, 2022
- b. Special Event: Easter Egg Hunt Extravaganza – Saturday, April 16, 2022
- c. Special Event: Thursday Sand Volleyball – Thursdays, April 28-Sept. 29, 2022
- d. Special Event: Boy Scouts Golden Eagle Breakfast – Thursday, June 2, 2022
- e. Special Event: July 4 Ice Cream Social – Monday, July 4, 2022
- f. Approval of February 2022 Bills

NEW BUSINESS

- a. 2022 Outdoor Dining Policy - approved
- b. Marijuana Annual Review - no action
- c. Street Sweeper Purchase Authorization - approved
- d. Approval of March 7, 2022 City Commission Meeting Minutes - approved
- e. Approval of March 7, 2022 City Commission Study Session Minutes - approved

2022 DTE Tree Trimming Program

• Two-thirds of the time DTE Energy customers spend without power is due to trees.
• Tree trimming is an industry-wide solution to prevent outages. DTE Energy follows industry best practice and standards for tree trimming.
• DTE Energy works collaboratively with customers every step of the way to address their concerns before we begin work.

Please note: During 2022, DTE is planning to trim trees within the area shaded green. Additional tree work may be necessary based on circuit performance to improve reliability. Severe weather, or other circumstances may change the timing and extent of the work.

RODENT, PEST, & OTHER CRITTER PREVENTION TIPS

Spring brings warmth and sunshine, and it gives everyone a pleasant reward after a harsh winter. But the season also brings more rodents and pests as insects, skunks, rats, raccoons, and other critters emerge now that the cold is gone.

Residents, business owners, and visitors all play a vital role in rodent, pest, and other critter prevention.

Rodents include squirrels, chipmunks, rats, mice, and others.

Rodents, pests, and other critters require three things to survive: food, water, and shelter.

Signs you might have rodents at or around your property:

- Holes, burrows, or hills in the grass or ground
- Trails or tracks
- Droppings

Following the tips below will make your property less attractive to rodents, pests, and other critters:

1. Eliminate common food sources

- Properly dispose of garbage including pet waste left in the yard, any debris/trash on the ground, and small trash like bottle caps, cigarette butts, and gum wrappers
- Keep tight fitting lids on trash, compost, and recycling containers
 - Do not overfill trash, compost, and recycling containers
 - Ensure there are no cracks or holes in your trash, compost, and recycling containers
- Ensure dumpsters are tightly sealed and lids are closed
- Remove compost piles that are not in a sealed bin, cart, can, or paper lawn and leaf bag
- Abolish bird/squirrel feeders, and clean up any food spillage on the ground
- Pick up produce from gardens and fallen fruit from trees

2. Get rid of stagnant water

- Eliminate bird baths
- Remove decorative fountains or ponds
- Fix leaky plumbing: hoses and spigots
- Reduce puddles or other areas of standing water in your yard

3. Maintain a clean, sanitary environment

- Keep grass and landscaping neat, trimmed, and free from weeds
- Keep firewood piles at least 12 inches off the ground
- Sweep up any litter and loose debris
- Ensure your garage, shed, deck, patio, and home are properly sealed and secured with no openings more than ½ inch
 - Check your shed or garage for a ratwall and your deck has proper skirting (chicken wire)

If you discover signs of rodents, pests, or other critters, help yourself and your neighbors by using these tips. Hiring a professional may be necessary. For more information and home solutions visit www.pests.org.

Everyone is part of the solution! Let's help each other!

Ruth Huston-Whipple Award for Civic Engagement

The Ruth Huston-Whipple Award for Civic Engagement is named in honor of Ruth Huston-Whipple, Plymouth's first female elected City Commissioner (1934-1949), first female mayor of Plymouth (1940-1942) and first female Wayne County Board of Supervisors member.

The purpose of the Ruth Huston-Whipple Award for Civic Engagement is to honor a community member who, like Ruth Huston-Whipple, has positively impacted the quality of life in the City of Plymouth through his or her exceptional civic and/or philanthropic engagement.

Nominees must meet the following eligibility criteria:

- Person must have demonstrated civic and/or philanthropic engagement within the City of Plymouth. Examples of impact should show a community benefit, delivered with integrity and perseverance
- Married couples can be nominated
- Past Ruth Huston-Whipple Award recipients, current members of the Plymouth City Commission and full-time employees of the City of Plymouth are not eligible to be nominated

The Ruth Huston-Whipple award winner will have demonstrated engagement, leadership and achievement over a period of time and in one or more of the following areas:

- Contributed to the City of Plymouth above and beyond reasonable expectations
- Demonstrated character, commitment and/or leadership qualities
- Actively participated in community or civic organizations whose sphere of influence falls within the City of Plymouth
- Exemplified accomplishments and contributions to the economic vitality and/or residential quality of life in the City of Plymouth

The nomination period opens January 1 and closes April 30 of each year, when a selection committee comprising two mayor-appointed City Commissioners and a representative from the City of Plymouth administration will select and notify the winner(s). The nomination form is on our website at plymouthmi.gov/nomination.

Past Award Winners
2020 Debra Madonna
2021 Jim Jabara

Items you may place in your recycling bin
